

# Payphone - Mechanical

Medeco® high security locks have protected pay telephone cash and components for over 30 years. No other lock company can compare to Medeco's proven track record of security and long term reliability in this highly theft prone market. Medeco payphone locks utilize hardened, stainless steel inserts throughout the cylinder, and hardened steel locking bolts and housings to provide the ultimate defense against drilling, pulling, and other forms of vandal attack. Patented key programs prevent the unauthorized duplication of keys. Medeco offers a complete line of pay telephone locks to fit Western Electric and GTE style payphones, upper and lower housings.

Medeco's unique elevate and rotate pin tumbler design provides double locking action, making cylinders virtually pick proof. All Medeco Biaxial® keys and cylinders are protected under patent, trademark, and copyright laws. Biaxial keys may only be duplicated by Medeco or by an authorized Medeco Service Center, and only at your request.

## Benefits:

- ▼ All Medeco cylinders constructed of durable machined brass components, designed to last the life of your pay phone.
- ▼ Hardened stainless steel inserts inside the cylinder, as well as hardened steel bolts and housing are the ultimate defense against drill, pull, punch, and other forms of physical attack.
- ▼ Unique elevating and rotating tumbler pin system is virtually pick proof.
- ▼ Patented Biaxial keys may only be duplicated by Medeco or authorized Medeco Service Center, and only at your request.
- ▼ Medeco pay telephone locks can be re-keyed by Medeco factory or authorized Medeco Service Center.

## Applications:

Medeco has pay telephone locks to fit any Western Electric or GTE style payphone, both upper service and lower vault housing.

## Warranty:

Warranted for two years against manufacturer's defects. See Medeco limited Warranty for full details.

## Technical Information:
